

Statement-of-Purpose-RT xx

Full Name:

University / Department:

Date:

1. Introduction & Motivation

(Brief paragraph: why you are interested in TALOS RT2; what experience, course, or project led you to engage with this research topic.)

2. Academic and Professional Background

(Present your studies, courses, assignments, or projects related to archaeology, digital technologies, or the humanities. Show how these connect to the internship.)

3. Topic - Objectives

- The topic you wish to develop.
 - The main objectives you set (e.g., learning tools, data analysis, participation in a research project).
 - The existing gap you have identified (e.g., limited experience in GIS or digitization of objects) and how the internship will help you address it.
 - Datasets: which datasets you plan to use (existing ones) and how your work could contribute to their reuse, enrichment, or expansion.
-

4. Skills & Contribution

(Describe the skills you possess: e.g., use of digital tools, foreign languages, source analysis, database creation. Explain how these could be valuable to the TALOS team.)

5. Next Steps

(How this internship will support your academic and professional trajectory; how it fits into your broader goals in archaeology or digital humanities.)
