NLP/AI Seminar Series

Join us for an engaging **online seminar series** on **Natural Language Processing** (NLP) and **Artificial Intelligence** (AI), organized by the **Computational Linguistics and Language Technology Lab** at the University of Crete (CLLT), in collaboration with the **TALOS-AI4SSH** ERA Chair project (GA: 101087269).

NLP and Linguistic Resources

November 21st, 18:00-20:00

18:00-19:00 - Stella Markantonatou, Research Director at the Institute for Language and Speech Processing/ATHENA RC: "Modern Greek dialects in the era of AI: resources, models and tools".

19:00-20:00 - Maria Theoxari, PhD student, Aristotle University of Thessaloniki: "Συγκρότηση και επεξεργασία δίγλωσσικου παράλληλου σώματος κειμένων λογοτεχνίας (fr>el) με τη συνδρομή της Υπολογιστικής Γλωσσολογίας".

AI Explainability, AI Ethics

November 28th, 18:00-20:00

18:00-19:00 - Aarne Talman, EMEA ML & Data Science Lead at Accenture Centre for Advanced AI: "What can explainable AI learn from models of scientific explanation".

19:00-20:00 - Konstantinos Kogkalidis, Postdoctoral Researcher at Aalto University and R&D Engineer, Skyfora: "On tables with numbers (and what they do (not) mean)".

December 5th, 18:00-19:30

18:00-19:30 - Shalom Lappin, Professor Emeritus, QMUL, University of London and Senior Researcher at CLASP, Gothenburg: "AI Dangers: Imagined and Real".

All sessions are open to the public and you can join via this [Zoom link](#).
